

Mental Health Interpreting: Increasing Our Comfort and Effectiveness

Presenter: Arlyn Anderson, MA, PCC, CI & CT

Date/Time: March 29, 2014 8am-5pm

(Lunch will be on your own. Lite snacks will be provided.)

Location: 700 West Ave S, La Crosse
2nd Floor Hospital- Marycrest Room

RID CEU's: .8

Participants are asked to bring a sense of curiosity and openness to this unique workshop. All will be encouraged to examine biases, values and other personal issues that may directly or indirectly impact their comfort and effectiveness in mental health settings and beyond. This will allow us a sense of humility, humor and willingness to explore the exciting and challenging specialty area of mental health interpreting from the inside out.

In this Workshop we will:

- Recognize 6 therapeutic interventions that may be easily-missed by interpreters;
- Identify unique biases, sensitivities and values that could unintentionally impact therapeutic goals;
- Identify a minimum of 3 core values that can be utilized to regain professional demeanor while interpreting personally difficult material;
- Assess areas of comfort and strength using the Whole Interpreter Wheel of Mental Health Interpreting.

Cost: \$60.00 (*Cash/check only*)

To Register Contact: Carr.jennifer1@mayo.edu or #608 386-0187

Attn: Jennifer Carr, Interpreter Services Department 700 West Avenue
South, La Crosse, WI 54601
